REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The invention as claimed is drawn to a method for calibrating a magnetic electronic compass. This method includes the step of using *specific* "deviation compensation data" in a calculation step in conjunction with further method steps. When considered as a whole, the specific method steps as set forth in independent claims 14 and 22 are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
